

NEW HOSPITAL SITE FOR FOX HILLS VETS

Washington Promises to Have
It Ready for Patients Be-
fore Next Winter.

ON ESTATE AT KENSICO

Bronx Institution Is to Be
Dedicated Soon—Delay
May Be Probed.

Special Dispatch to THE NEW YORK HERALD.
WASHINGTON, April 11.—After a delay of thirteen months, to which is due all the trouble over the closing of Fox Hills Hospital and the transfer of ailing veterans to the city hospital at Sea View, Staten Island, next door to the poor farm, a site for a Government hospital, just outside the city of New York, for the treatment of tubercular veterans, has been selected.

That is, the site and plans have been approved by the Treasury Department, the White committee, the National Tuberculosis Association, and arrangements for taking over the property are now being made.

The property, THE NEW YORK HERALD was informed to-night, is the estate owned by Mrs. A. W. Church in Port Chester, N. Y. It is several miles from Port Chester and about a mile and a half from the Kensico reservoir. There are about 100 acres of rolling country and woodland. The main building and a smaller building near the gate are of stone.

Meanwhile the New York delegation in Congress is planning to demand an investigation of the long delay, the appropriation of more than \$1,000,000 for the hospital having been made in March, 1921. The New Yorkers charge the White committee, which is an advisory committee of the Treasury Department on hospitalization, has permitted the delay while veterans suffered from lack of treatment. The committee is accused of negligence and of having "dilly dallyed" while "veterans were dying for lack of hospital facilities."

Wants Congress to Act.
Representative Hamilton Fish, who has inspected the New York hospitals, said to-night:

"Congress should take some action in this matter and I shall urge that it be done. Had the committee acted promptly a fine hospital could have been completed by now."

The women, who, under the leadership of Mrs. Charles H. Patterson, have been protesting against the transfer of Government patients to Sea View, are not satisfied with the site that has been chosen for the permanent hospital. They say the men properly demand that they be sent to the mountains and that nothing short of a hospital in the Adirondacks or at some other mountain place will be acceptable. The fact that the transfer from Fox Hills to Sea View are nearly completed has not discouraged Mrs. Patterson. She said to-night: "The fight is just begun."

Assistant Secretary of the Treasury Clifford said that the construction work would start within a few days after purchase of the land was completed and that the hospital would be finished six or eight months after breaking ground. This would permit the ex-service men to be transferred to the new hospital before next winter. It is proposed to make this the best equipped hospital in the United States for the treatment of tubercular patients.

Within a few days there will be dedicated also for the care of veterans the Bronx General Hospital in New York, which is officially known as United States Veterans Hospital No. 83. This is a plant which was purchased ready built at a cost of \$2,000,000 and re-equipped by the Government at an additional expense of several hundred thousand dollars.

Site Not Fully Satisfactory.

While the National Tuberculosis Association has apparently approved the site for the new hospital chosen by the White committee of the Treasury Department it obviously has not done so wholeheartedly. The association has favored buying land and building a modern institution from the ground up. Its medical chief, Dr. H. A. Patterson, and Institutional Secretary T. B. Kidner, who have been consulted by the White committee, do not deem it wise to attempt to convert into a sanitarium buildings planned for some other purpose.

The purchase now proposed in Westchester county, includes a mansion and outbuildings, which would be altered for hospital purposes, with the addition of some new buildings. Climatologically the proposed site is acceptable to the N. T. A., but the association exploded the idea that the site was ideal. It questions the medical knowledge of the women and the heads of the American Legion and other bodies who are demanding mountain hospitals for the veterans.

The NEW YORK HERALD asked the National Tuberculosis Association yesterday why the selection of a site had been delayed so long. Mr. Kidner replied that he did not know all the reasons.

"Because of the limited amount of money" (the total appropriation was \$18,000,000), Mr. Kidner continued, "the site already owned by the Government or that could be donated were at first considered, and undoubtedly some of the delay in the metropolitan district was due to that fact."

Mr. Kidner and Dr. Patterson did not know who was responsible for the fact that the committee was looking for nearly six months for free sites, when it had become apparent that the Government could not acquire suitable land or buildings by gift.

VETERANS MAY GET STATE AID IN WEEK

Governor Expected to Sign
\$1,000,000 Bill To-day.

Special Dispatch to THE NEW YORK HERALD.
New York Herald Bureau,
Albany, April 11.

Following unofficial announcement that Gov. Miller will sign to-morrow the bill appropriating \$1,000,000 for disabled veterans, the commission which is to administer the fund met to-day and organized. It is said the board will begin distributing the funds within a week.

The commission is to be known as the New York Veterans Relief Commission and is composed of the same members as the defunct soldier bonus commission. They are Gen. J. Leslie Kincaid, Comptroller James A. Wendell and Attorney-General Charles D. Newton. Col. Henry Cookingham of Ulster was appointed executive director and Major Clarence Martin of Oswego assistant executive director.

Application blanks can be obtained from deputies in each Assembly district, who will also make payments. There will be an examining physician in each district, who is to get \$2 for each examination.

Saks & Company

Broadway at 34th Street

Saks & Company

We Have Completed Preparations to Hold Wednesday

A SALE OF

Capes and Coats for Girls

at 12.95

Tailored Box Coats, straight of line, are fashioned of excellent quality heather cloth, that durable and attractive material that wears so well and looks so well on all occasions. Capes with the flapper flare have a fringed throw scarf, and are indeed jaunty. Both may be had in rose, orchid, tan, and China blue. For girls of 6 to 16 years.

Special at 15.00

Smart Coats that may be belted or boxed, fashioned on mannish lines with just enough girlishness to have the right appeal. The materials are herring-bone, heather coating and camel's hair cloth. There are also flare capes in soft tones of heather polette. All silk lined. 6 to 16 years. *Second Floor*
